# PERSONALITY TYPE

## THE COMMANDER

You are a strategic leader, motivated to organize change. You are quick to see inefficiency and conceptualize new solutions, and enjoy developing long-range plans to accomplish their vision. You excel at logical reasoning and are usually articulate and quick-witted.

# STRENGTHS

Strong-willed - One thing that is especially admirable about you is your near imperviousness to criticism. Once you have formed a position or made a decision, you don't buckle under pressure.

Efficient - You are known for your sheer productivity, efficiency and focus, often being able to handle many tasks without dropping or defaulting on any of them.

Strategic thinking - You are a sharp thinker and remarkable problem solver. You tend to have great ideas and are able to examine the situation from every angle and strategically map out a plan in order to achieve their vision.

Charismatic leaders - You live in a world of possibilities and see challenges everywhere that you gladly attack. You are a leader in the best sense, using your energy and charisma to inspire and motivate others.

# WEAKNESSES

Blunt and dominant - Given your logical way of thinking, it's no surprise that you are an expert at finding flaws and holes. But when combined with your characteristic bluntness and lack of regard for the feelings of others, it can make them appear critical, nit-picky and unrelenting.

Intolerant - You hold others to your same impossible standards, believing everyone can and should work as hard as you do.

Arrogant - You respect strategic thinking, quick wits and decisive action, and look down on those who don't match up.

Poor handling of emotions - Empathy is not one of your strengths. You tend to be impatient when others refuse or are unable to see things from your perspective, and it requires active attention from you to recognize the value of others' opinions and to take their feelings into account.
